Subject: DOC Population Breakout: 4th Quarter 2014, December 31, 2014

The following information is based on the DOC Institution Population on December 31, 2014. This report is divided into four sections.

Section 1 gives a general overview of the DOC institution population on December 31, 2014. The first table describes the DOC institution population using the offender level and sentence type versus the institution. Institutions are separated into three types, Prison, Community Corrections and Other which includes the Delaware Psychiatric Center and Compact Cases. The second table provides a historical look by quarter of the DOC institution population by offender type and status. Consistently, the prison population hovers around 50% of the total institutional population, jail between 7 and 8%, lifers between 7 and 8%, and detention ranging from 19% to 24%. Between 11 and 13% are Level IV and less than 0.5% are Level III. The remaining 1% of the Level V DOC institution population is mostly indefinite sentence offenders and 0.2% of the population is inmates sentenced to death. The third table in Section 1 illustrates the change in the institution population from September 30, 2014 to December 31, 2014. An overall decrease of 258 offenders has occurred in the population between September 30th and December 31st, with a decrease in Prisons of 282 offenders, an increase of 31 offenders in Community Corrections, and a decrease of 7 offenders in Other facilities. This decrease in population brings the total population closer to what it was in December 2012, and marks the lowest population in the last two years.

Section 2 describes the demographic make-up of the DOC institution population on December 31, 2014. Just about 55% of the institution population is Black while 44.6% are White, and the remaining 0.2% is Other/Unknown. Over 91% of the population is male, and 8.3% is female. The female population is mostly White (70.5%), while the male population is mostly Black (57.6%). In addition, 56.5% of the population is under the age of 35, with 76.9% of the population under the age of 45.

Section 3 portrays the length of stay for both the detention and sentenced populations in a DOC institution on December 31, 2014. Just over 60% of the detention population has been detained for 90 days or less, with 3.1% detained more than 1 year. More than 50% of the sentenced population has served 1.5 years or less with 22.2% having served more than 5 years and 8.4% of the population having served more than 10 years. The final table describes the expected release for sentenced offenders with 53.1% of the December 31, 2014 sentenced population expected to be released in the next two years.

Section 1: Overview

DOC Institution Population on December 31, 2014

⁴ Expected Release does not include Life or Death sentences. Some sentenced offenders are not represented; only those who have an expected release date on the system (3 Level III, 46 Level IV, 2 Indefinite, 1 Jail and 1 Prison did not have good time or max dates on the system). Additionally, 2 Level IV and 5 Jail sentenced offenders are not in this table because the expected release and max release date occur on or before December 31, 2014.
