Subject: Superior Court Detention Case Status of Long Term Detainees: 2nd Quarter 2015, June 30, 2015

This updated quarterly report provides an overview of Superior Court detention population cases for defendants detained longer than 120 days in a Level V Delaware Department of Correction (DOC) secure facility or the Delaware Psychiatric Center. Although the detainees may have more than one case for which he/she is being held, only the case with the highest charge for which an individual is being held is reported. This report also gives the statewide and county breakdowns for the Superior Court detainee population in a secure DOC facility 120-days or more for the 2nd quarter of 2015, and a historical look of these populations since the 1st quarter of 2010.

There are numerous reasons why an offender with a Superior Court case may be detained in a secure facility for 120 days or more. Superior Court detainees with no specific case complications are found in the category of “active” detention cases. These “active” cases are following normal court processes and have not been sentenced as of the end of the quarter. The second group of detainee cases, “other non-sentenced detention cases” are those consisting of persons with cases involving psychological issues, and those defendants found guilty but awaiting sentencing. Murder 1st degree cases are also in this “other non-sentenced” category. These cases are not held to the same time processing standards as “active” cases.

The statewide Superior Court detention population summary, found in Table 1, shows a population of 356 individuals that have been detained longer than 120 days. Of these 356 individuals, 220 cases are pending disposition without exceptional circumstances. Ninety-nine are guilty awaiting sentencing, 29 are Murder 1st cases, and the remaining 8 cases are awaiting some type of psychological evaluation. Six of the individuals awaiting psychological evaluation are physically held at the Delaware Psychiatric Center.

The second, third and fourth tables, show a detailed breakout by county. New Castle County has the largest percent of the statewide Superior Court detention population (71.3%). The remaining 28% of Superior Court cases are between Kent County (15.7%) and Sussex County (12.9%).

The final table displays the Superior Court detention population by quarter since March 31, 2010. The total 2nd quarter 2015 Superior Court detention population has decreased overall by 5 individuals, with a 5 person decrease in active cases, and a 1 person increase in the other non-sentenced detention category since 1st quarter 2015.
